beverages will NOT be
provided at this workshop.*

Early Childhood Assistive Technology Workshops

Embedding technology in early childhood classrooms can be challenging. State Support Team 3 and State Support Team 8 have created an exciting 2-year learning opportunity for all early childhood educators! This series will focus on four main objectives and present participants with connections to the elements of the ELLCO (Early Language and Literacy Classroom Observation) Toolkit and best practices in the use of technology. Attendance at all sessions is recommended but not required. However, the commitment to attend all sessions is worth the investment!

The session objectives include:

- ◆ Understanding and building comfort with personal use of technology (2009—2010)
- ◆ Designing instruction that utilizes technology to support all children (2009-2010)
- ◆ Engineering the classroom environment with technology in mind (2009-2010)
- ◆ Use of technology to support individual learners (offered 2010-2011 school year)

Registration for this workshop and other events sponsored by SST Region 3, must be done through the Ohio Department of Education's registration system, STARS. We will no longer accept paper registrations. **To register on STARS for this event go to <http://webapp2.ode.state.oh.us/stars/default.asp>.** A “SAFE Account” must be set up first in order to register. For additional information or assistance call Bonnie Simons, 216-524-2770, extension 3818.

This activity is funded by IDEA, Title VI-B grants to states, through Ohio Department of Education grants to Educational Service Center of Cuyahoga County.
