Friday, November 20, 2009
ESC Professional Development Center, Bldg. B
5800 West Canal Road, Valley View, Ohio
Registration: 8:30–9:00 am
Training: 9:00–12:00 pm

For directions to this workshop, visit our website at esc-cc.org

The revised ODE IEP form now contains all federally required components of an IEP. In addition, it provides a level of detail that allows service providers the specific information they need to provide services to children with disabilities in a way that allows children to access the general curriculum. This network meeting will address the unique challenges of developing IEPs for preschool children with disabilities while considering their specialized developmental, instructional and related services needs.

Professional Development Contact Hours: 3.0

This activity is funded by IDEA, Title VI-B grants to states, through Ohio Department of Education grants to Educational Service Center of Cuyahoga County.
